

Nature picture frame

First, draw or paint a picture of your favourite animal OR a landscape OR something else from nature

...

Next, take your picture outside and find a good spot for it on the ground.

...

Now, collect some natural objects:

bark

twigs

stones

shells

leaves

flowers

Arrange your objects around your picture – to make a frame!

...

Stand back and admire your artwork!

Now:

Can you add more natural objects to make your frame even bigger?

Or a different shape?

If you take your picture out of the frame, what else could go in there instead?
