

Lots of animals,  
insects, plants and  
birds use camouflage  
to help them hide  
and keep safe.

# THE ART OF CAMOUFLAGE

Find a small snail shell,  
leaf, feather, piece of tree  
bark or seed and glue it  
onto a piece of paper.

Look closely at its  
colours and patterns.

Using coloured pencils or  
paints, you can continue the  
patterns and colours across  
the paper to fill the page.

Can you see where  
the object ends and  
the picture begins?
